The Vestiges of Our Operations.

Those who denounce the heads of government

as "incompetent," "slow

coaches," &c., will do well to scan the

reports of the different departments just

published. While mistakes have been com-

mitted, and errors of judgment have oc-

curred, it is safe to say that no man has

ever worked harder, or served the interests

of the country with more earnest and con-

sistent energy. The wonder is, not that

more has been done, but that so much

has been done, and done so well.

The feeling with which we peruse these docu-

ments is one of absolute amazement over

the vastness of the operations of the gov-

ernment during the past twelve months.

The world has never witnessed anything

like it. All the wars that have preceded

the one now on hand, shrink into in-

significance in comparison. The campaign

of Caesar and Napoleon appear pitifully

small beside the one we have been conducting

the past eight months.

Take, for example, the operations of the

war department. Over twelve hundred

thousand men have been raised, armed,

clothed and equipped since the war broke

out. Of this vast number, the draft has

produced fifty thousand; while fifty thou-

sand blacks have been put in the field dur-

ing the past year. Of cannon, small arms,

ammunition and equipments for men

and horses, and ammunition obtained dur-

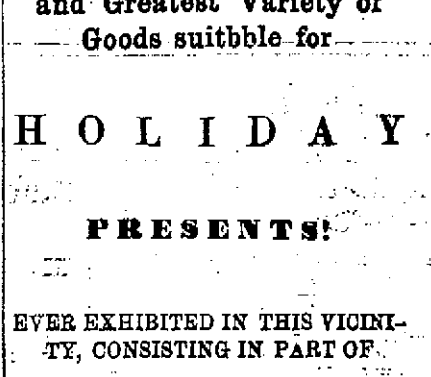

ing the year, we have the following sum-

mary:—1,377 field, siege and sea coast

cannon, with carriages, caissons and other

implements; 1,082,841 muskets and rifles

Forever float that standard sheet—Where breathes the foe but falls before us? With Freedom's soil beneath our feet, And Freedom's banner streaming o'er us!

The News.

The reports to-day are of unusual interest. If it be true, as stated in the Richmond papers, that the Ironsides and three of the Monitors have been disabled in making an attempt to pass the obstructions in Charleston harbor, there will be as great joy throughout the south as sorrow in the north. Further news will be looked for with intense anxiety.

There are conflicting stories about Longstreet's condition. Let us hope the best one is true.

The pirates of the Chesapeake have been rescued by a mob in Halifax, after being placed in charge of the British authorities. We will soon see if England is as prompt to punish the offence as she was to demand reparation when Slidell and Mason were taken on the Trent.

The legislature of Eastern Virginia are moving in the direction of the abolition of slavery in that part of the old state.

Galveston, it is reported, is to be attacked by our forces.

Congress will in all probability repeal the \$300 clause in the conscription law. If it go further and deny conscripts the privilege of furnishing "substitutes," it will be all right, as that will bring "shoddy" into the ranks.—*Madison Patriot.*

If the commutation clause should be repealed, and with it the privilege of sending a substitute, there will be a louder howl from copperheads than from all the "shoddy" men in the country. Suppose under this state of things, the editor of the Patriot should himself be drafted, would he overlook his own grief in rejoicing over the trouble of some "shoddy" contractor? We are afraid he could never see beyond his own affliction.

It is not only remarkable but encouraging that in the recent organization of the houses of congress it was the first time since the administration of Jackson that the last congress of any administration has been organized favorably to the party in power.

**VOTE OF THE WISCONSIN MEMBERS.**—Messrs. Sloan, Cobb and Molodens (republicans), and Mr. Wheeler (democrat), voted in favor of laying Fernando Wood's peace resolutions on the table. James S. Brown, the Milwaukee man whom a small portion of Milwaukee republicans supported against John F. Potter, dodged the vote. Mr. Eldredge, the Fond du Lac copperhead, voted against laying the resolutions on the table, and was one of the fifty-nine members who desired to send a delegation to Jeff Davis suing to him for peace!

Beriah Brown, has removed from Sacramento to San Francisco, and is now one of the editors and publishers of the Daily Democratic Press, of the latter city. It is unnecessary to mention its politics.

From the Madison Journal.

The State Canvass—Majorities of the Several Candidates.

We subjoin the aggregate vote as canvassed, together with the votes rejected on account of informalities in the returns, for the several candidates for state offices:

GOVERNOR.		MAJ.
Lewis, canvassed.....	72,717	40,088
rejected.....	7,217	6,140
79,934	55,107	21,728
LIEUTENANT GOVERNOR.		
Pooper, canv.....	25,626	49,282
rejected.....	7,216	6,166
70,712	55,418	25,294
SECRETARY OF STATE.		
Fairchild, canv.....	32,087	40,044
rejected.....	7,220	6,148
80,206	55,912	24,993
STATE TREASURER.		
Hastings, canv.....	12,671	40,911

Cordier, canv.....	12,586	40,927
rejected.....	7,220	6,148
80,206	55,912	24,993

It will be seen that Mr. Ramsay, the Union candidate for bank controller, has the largest majority, and that Mr. Cordier, Union candidate for state prison commissioner, stands next in order. Both these gentlemen have over twenty-five thousand majority.

The 17th Wisconsin RE-ENLISTED.—Lt. Col. Thos. McMahon, of the 17th Wisconsin, arrived home last evening. He reports the regiment in excellent health and condition, and says the men, with few exceptions, have all re-enlisted; their re-enlistment to date from the 1st of next March. They have a furlough of 60 days before their next term of service. "Bully" for the 17th.

Col. McMahon, is here for the purpose of recruiting. Persons wishing to join a crack regiment will find the 17th a desirable one.—*Waterloo Republican.*

BY TELEGRAPH.

REPORTED FOR THE DAILY GAZETTE.

AT WISCONSIN STATE TELEGRAPH OFFICE.

Office in Union Building.

Saturday Night's Report.

WASHINGTON, Dec. 19.

Mr. Seward's diplomatic report will be ready for the press in a day or two. The Evening Star has the following: The authorities here have dispatches from Gen. Grant at Chattanooga, dated last night at 9 o'clock. They do not indicate any recent change in the state of affairs there. Gen. Grant is in constant telegraphic communication with Gen. Foster at Knoxville, and had there been any fighting between Gen. Longstreet's forces and ours pursuing him, as the press dispatches from Cincinnati state, Gen. Grant would doubtless have sent such dispatches here. The fact that he says nothing about such an engagement induces the belief that the statements via Cincinnati, referred to above, have been much exaggerated.

Two hundred and twelve rebel deserters were sent from Capitol Prison this morning to Philadelphia to take the oath of allegiance. This make 415 who have been sent to the same place this week for the same purpose.

NEW YORK, Dec. 19.

The Tribune's Foreign Island correspondent writes December 19th: Saturday morning, while the tide was receding, one of the privateers of the Rhode Island battery discovered from Fort Putnam what he thought to be a brass field piece. He asked and obtained permission to go and see. He armed himself with a spade and in a few minutes revealed a beautiful brass twelve-pounder. Twelve men were immediately detailed to carry it into the fort, which was done successfully under a brisk fire from Moultrie. As soon as it was in the fort it was mounted in a good position and ready at a moment's notice to be used against its old friends. The space in the course of the day brought to the surface 500 rounds of solid shot that just suited the calibre of the piece. It is thought the rebels before evacuating Greece buried a quantity of ammunition of all sorts. A few days will decide the matter.

The storm and high tides have been effectual in washing away some of Admiral Dahlgren's greatest enemies. Morris Island for a mile is lined on the beach with immense logs, 30 feet long and 8 inches thick, fastened together by very strong bands of iron. No trees can be discovered where torpedoes have been fastened. If ever, now is the time for the admiral to make the attempt to go into Charleston.

The Washington correspondent of the Post, 18th, says the tide of exultation of Mosby and band upon Fairfax County has started this city, and it is a sample of what may be expected during the winter unless Gen. Meade falls back near Washington, or strengthens his communications. The army will be compelled to fall back if these raids continue, and it is probable that Gen. Meade has contemplated a retrograde movement for some time.

The rumors of the removal of General Meade have died out, and now it is generally believed he will remain in command for the winter. The fact that Gen. Meade occupied a perfectly independent position, and offered to resign again and again, has helped him very much with the President. He has boldly defended his recent campaign, not even asking for a lenient judgment upon it. The whole subject is dropped for the present.

Last Night's Report.

BOSTON, Dec. 19.

The special correspondent at New Orleans of the Traveller, under date of the 10th inst., says: Gen. Washburn holds the east of Texas from the Rio Grande to within one hundred miles of Galveston. Another division of the 13th corps starts for the Texas coast to-day, and the expectation is that Galveston is the next place to be put down in the history of the war as having been reduced by the Federals. Gen. Franklin is still at New Iberia with about four divisions. Gen. Weitzel goes north to join Gen. Butler's command in a few days. It is not known who takes his place.

River navigation is closed. Several boats tried to get away to-day in rain. The White Cloud, with government mail, is reported fast in the ice below the city.

WASHINGTON, Dec. 20.

The joint committee of the senate and house of delegates, of Virginia, at Alexandria, agreed last night on a bill, calling a convention for abolishing slavery in that state, which will be passed to-morrow.

WASHINGTON, Dec. 19.

The Secretary of the Navy received a dispatch from Commander Clary, dated Halifax, 18th, saying the Chesapeake has been transferred to the British authorities. HALIFAX, Dec. 19, 10 P. M. At one o'clock this afternoon, the steamer Chesapeake and the prisoners on board, were delivered over to the government, upon arrival of the boat containing the prisoners at the Queen's wharf. The excitement became intense. The prisoners were immediately seized by a boat's crew in the slip, and hurried off by the crowd in attendance. Upon the government officers, moving to arrest the prisoners, under a warrant, they were seized and held powerless to perform their duties. The crowd finally succeeded in getting the prisoners off in a small boat which forthwith moved down the bay. The affair caused the greatest excitement throughout the city. What course the authorities will pursue in the matter, it is impossible to say. The prisoners are now all at liberty, scattered throughout the province.

To-Day's Report.

(Reported Exclusively for the Daily Gazette.)

MORNING DISPATCHES.

WASHINGTON, Dec. 19.

Special to the Tribune.—Although no official order has been issued, it may be considered that General Schofield will be relieved within a day or two, at his own request. An order probably has been received that General Rosecrans will succeed him. A new command will soon be arranged for General Schofield. The President says the reports against him in connection with cotton speculations are utterly unfounded. A gentleman who has resided in Richmond during the past five years, recently escaped, and has reached here. He left Richmond December 5th. He furnishes the following: The garrison of the city and forts number about 30,000, who are principally employees of the government. The fortifications consist of several lines of earthworks, earthworks, rifle pits and batteries. The forts are well manned. The number of guns mounted on all the works is quite considerable compared with their extent at one time. Our prisoners planned an escape. The Union men of Richmond were aware of the intended effort, and would have joined the prisoners had they succeeded.

From the army in Richmond and works at Fayetteville, North Carolina, about 300 guns per week are turned out. All these guns are rifled at the Tredegar works. The heavy guns are hooped, and the light ones are bored. The Tredegar works are proving them to be going on. At present they are being bored by which they hope to make 2,000 rifles per month. The principal powder manufactory is at Augusta, Georgia. The loss of stocking machinery at Fayetteville would have proved irreparable. Early in the war, and until a very late date, the drawings of projectiles adopted by our government were received from Washington, and in some cases their manufacture commenced in Richmond even before made here. Our informant says the prices current under quoted everything. Flour quoted at \$75 per barrel actually sells at \$125, and other things in proportion. All hopes of foreign intervention has died out. The refusal of England to allow the rams to sail created much indignation. South Carolina is openly denounced in the streets with devout wishes that that state might be sunk. People are very anxious for an exchange of prisoners, and it is thought the cessation of exchange was a plan adopted by our government to prevent them from refilling the rebel army, and the starvation of our men was spoken of as being the plan to compel us to resume an exchange.

WASHINGTON, Dec. 20.

Special to the Tribune.—The following senators and members of congress are on the committees of the democratic caucus to confer with the national democratic committee to fix the time and place for holding a national convention. J. C. Allen, Illinois; Fernando Wood, G. B. Steele, New York; W. H. Miller, Pennsylvania; Garrett Davis, Kentucky, and senator Hendricks, Indiana. The following were appointed to arrange the order of business for the democratic members, who are to report to the caucus, Monday. Dawson, Pennsylvania; Brooks, New York; Pendleton, Ohio; Mallory, Kentucky, and Robinson, Illinois.

Since the senate committee indicated its purpose to repeal the \$300 exemption clause, enlistments have substantially ceased all over the country. The governors of many of the states, in letters to leading senators, have protested against the repeal as certain to run up the price of substitutes to at least \$1,000. The probabilities, to day, are that the exemption will be increased by the senate committee to \$500.

The government will dispatch a messenger to Halifax, to-morrow, with instruction to our consul there. The action of the British authorities in protecting the pirates of the Chesapeake, caused much comment in diplomatic circles.

HEALTHY—OUR FEET.—Women are not

more healthy than men. They walk on the same hard, cold earth. Their shoes must be as thick and warm. The calf or hip skin is the best for the cold seasons. The sole should be half an inch thick, in addition there should be a quarter of an inch of rubber. The rubber sole I have used for years; I would not part with them for a thousand dollars. It keeps out the damp, prevents slipping, and wears five times as long as leather of the same cost. For women's boots it is invaluable. But rubber shoes should be discarded. They retain the perspiration, make the feet tender, and give susceptibility to cold. Stand on one foot, and mark around the outspread toes. Have your soles exactly the same width. Your corns will leave you. The narrow sole is the cause of most of our corns. A careful study of the anatomy of the foot and the influence of a narrow sole will satisfy every inquirer. The heel should be broad and low.

Wear thick woolen stockings. Change them every day.

Before retiring, dip the feet in cold water. Rub them hard. Hold the bottoms at the fire till they burn.—*Dr. Lewis.*
